

## Junior Machinist

The Blower Shop began in 1984, primarily serving the top fuel, alcohol dragster and drag boat market with race-ready high performance superchargers. This expertise was instrumental in the development of cutting edge supercharging technology. Our goal has always been to increase the performance of the roots style supercharger, making it the best choice for anyone in the racing industry. We are dedicated to bringing this technology not only to the professional racing industry, but to the street and marine enthusiast as well. Using our proprietary UDA technology, we manufacture a complete line of hand-built superchargers, intake manifolds, intercoolers, and components, from our low profile 192 and 250 superchargers, to the traditional 71 series, we build it all right here in the USA.

The Junior Machinist is responsible for following precise direction from the supervisor in order to operate CNC Mill and or Lathe (Haas). This position will require the ability to move heavy material, deburr rough sharp edges, stack, relocate, and account for machined parts. Opportunity for advancement. Benefits
