

SOCIAL DISTANCING GUIDELINES

Firebird Raceway has developed a systematic, multi-stage program to manage the health and well-being of our employees, participants, crew members and spectators. In accordance with the State of Idaho health and safety guidelines, Firebird Raceway will at a minimum be establishing the following additional initiatives:

Firebird Raceway is fully supporting all team members to be as proactive with hand washing, hand sanitizers and facial coverings as possible.

PARTICIPANTS & SPECTATORS

- 1** Firebird Raceway will institute a ticket selling procedure for participants and spectators dramatically limiting physical interaction with customers. This will include advance registration sales and in-car ticket purchasing (no ticket windows/line).
- 2** The track will hire additional security and customer service representative to enforce social distancing throughout the facility.
- 3** Firebird Raceway has the capability to open multiple entrances and exits and will adjust in real time to maximize the ingress and egress to safely manage traffic flow.
- 4** Firebird Raceway has purchased mobile hand sanitizing stations and will have employees monitoring and cleaning these stations throughout the event. Additionally, employees will be staffing the restrooms to ensure cleanliness.
- 5** Firebird Raceway will provide signage and visual markers to designate social distancing for any lines entering spectator viewing areas, restrooms or our food & beverage stands.
- 6** The Race Control Tower will be restricted access only and limited to essential Firebird staff.

SOCIAL DISTANCING GUIDELINES

PARTICIPANTS & SPECTATORS CONTINUED

7 The staging lanes will be widened out to create a buffer between the two lanes (for left and right) to uphold physical distances recommendations.

8 The process of payouts for events will not take place on-site or in the tower on the day of the event. We will be mailing prize checks to the race winners.

9 Staging lanes/Starting line: This is our main congregating area for crew members and their families. We will be implementing policies and procedures for this area with access limited to crewmembers who will also be limited on

their time in the area. Our security staff, starting line crew and Firebird Safety Team staff will closely monitor this area to prevent unauthorized gathering.

10 Spacing in the grandstand will allow for seating every other row with additional space in the grandstands between each family (or an individual person).

11 In our plans we also will be developing pit area policies that will limit time spent before and after the completion of races.

Firebird Raceway is completely supportive of our state government and are thankful for the leadership provided by Governor Little. We are committed to operating in a responsible and reasonable manner to generate positive economic growth for Idaho, while also providing racing enthusiasts a safe place to participate in one of the most social distancing friendly sports in the country.

SOCIAL DISTANCING GUIDELINES

RACER GUIDELINES

- 1** When parking in the pit area, please leave a minimum of 6' between race cars and/or transports-trailers.
- 2** Please adhere to social distancing and refrain from gathering in large groups of people outside of your team.
- 3** Firebird Raceway has purchased mobile hand sanitizing stations and will have employees monitoring and cleaning these stations throughout the event. Additionally, employees will be staffing the restrooms to ensure cleanliness.
- 4** Please leave the starting line as soon the car you are with completes its pass.
- 5** **NO CONGREGATING ON STARTING LINE.**
- 6** The Race Control Tower will be restricted access only and limited to essential Firebird staff.
